SINOMAR Waste Management Ltd has developed a range of Compactors specifically designed for use onboard sea going vessels of all types.

Our range of Compactors allows a client conscious of their waste disposal & recycling activities, which today is an ever increasing matter for environmental and financial consideration.

Throughout the range, we offer a standard unit as well as Water (WP), Explosion (EX) Proof & combined WP/EX models with customizable power supplies.

Dimensions are kept to a minimum with a maximum depth of 650mm allowing easy access for internal installations.

Our Compactors, Balers & Shredders are able to process all soft waste materials; Paper, Cardboard, Plastic Bottles & Drums, Tin/Aluminium Cans, Paint & Oil Drums up to 25Ltr*
* 20t machines are able to process 205Ltr Steel & Plastic Drums.

Offering a compaction ratio of up to 12:1 (Plastics) 8:1 (Paper/Cardboard) our machines can drastically reduce the storage space required as well as the ever increasing waste disposal costs being charged for disposal.

The equipment is manufactured Exclusively for SINOMAR by SINOBALER Machinery Co Ltd Located in the coastal city of Ningbo.
